

Sean Kakhkhorov

Full-Stack Developer (AI & DevOps)

Suwon, South Korea · kakhkhorov97@gmail.com · 010-7901-7555 · D-10 (job seeking)
PORTFOLIO sean-kakhkhorov.site · GITHUB github.com/kakhkhorov97

SUMMARY

Full-stack developer with **2 years 10 months of professional experience** building web apps, APIs and Linux deployments for **20+ client companies**, plus **five live products** (four solo) taken from data model to production. My International Trade degree is behind CargoCheck AI: invoice and packing-list checks, built as software.

SKILLS

Languages	TypeScript, JavaScript, Python, SQL
Frontend	React, Next.js (App Router), Tailwind CSS, Apollo Client, Redux Toolkit, next-intl (i18n)
Backend	Node.js, NestJS, Express, FastAPI, GraphQL, REST, Socket.IO, JWT, OAuth 2.0 (PKCE)
Data	PostgreSQL (Neon, pgvector), Drizzle ORM, MongoDB, Redis (Upstash), BullMQ, Chroma
AI	Gemini API, RAG (BM25 + vector search, RRF), Kiwi Korean tokenizer, structured output, OCR (Tesseract)
DevOps · QA	Docker, Google Cloud Run, GitHub Actions, Vercel, Render, Nginx, Linux · Jest, Vitest, Supertest, pytest

EXPERIENCE

IT Local — Full-stack Web Developer — Uzbekistan · 2023.11 – 2026.02

- Built and maintained sites and APIs for **20+ client companies** in a 4+ developer team (React, Node.js, auth).
- Set up and secured **5–15 Ubuntu servers**; Node.js on PM2/Docker behind Nginx/Cloudflare; fixed outages from logs.
- Replaced manual SSH deploys with a **CI pipeline**, so any teammate could release with the same reviewed steps.

Atlantis Investment — Backend Developer — Uzbekistan, alongside studies · 2023.04 – 2023.09

- Built Express.js REST APIs with JWT/session sign-in, uploads, and MongoDB indexes for search and paging.

PROJECTS

CreatorHub Live — Solo · 2026.07 – present — creatorhub.site — GitHub

- Korean creator marketplace (EN/KO/UZ): Next.js, NestJS GraphQL, MongoDB, Socket.IO chat, moderation, Gemini AI.
- Stopped duplicate inquiries with transaction-checked request keys and unique indexes; restart-safe notification worker with 60 s leases and batch checkpoints.
- Docker/Nginx VPS, GitHub Actions CI, manual deploy, health-checked rollback; **293 automated checks** (Oct 2026).

Sofiya Live — AI bookstore · EN/KO/RU — sofiya.store — GitHub

- Full-stack TypeScript store (Next.js 15, NestJS 11, PostgreSQL/Drizzle on Neon) on Google Cloud Run, keyless CI/CD.
- Hybrid RAG concierge (pgvector + full-text search, RRF, Gemini) that recommends only in-stock books with verified citations: **hit@5 100%, MRR 0.95** on 45 questions vs 85% for keyword search.
- Toss Payments in test mode with server-side amount checks, idempotent checkout and automatic refunds; Google OAuth (PKCE), Resend email, Redis rate limits; **~260 automated tests**.

Korea Visa Assistant Live · beta — Bilingual RAG · Cloud Run — Live app — GitHub

- Shared FastAPI engine: article-aware chunking, Kiwi tokens that keep visa codes whole, BM25 + Chroma fused with RRF; retrieval **hit@5 0.969, MRR 0.935** on 32 labelled questions.
- Quote-checked Gemini claims with citations, source fallback, identifier blocking, pinned snapshots; **125 tests**.

CargoCheck AI Live — Shipping-document review — Live app — GitHub

- Gemini extraction in BullMQ jobs; reviewers confirm values before quantity, unit and decimal checks.
- Per-flag decisions, corrections reopen reviews, PDF reports; Vercel, Render (Docker), **Neon**, **Upstash**.
- Hashed sessions, per-account ownership checks, file signature checks; **42 automated tests** in CI.

Lexara Live · collaborative — Contributor · backend — Live site

- Worked on the FastAPI backend of a cited document Q&A platform: endpoints, uploads, models, migrations.

EDUCATION

Chonnam National University — B.A. International Trade, taught in Korean · 2019.09 – 2023.08

Languages: **Korean** business (4-year degree taught in Korean) · **English** fluent · **Uzbek** native · **Russian** elementary
